

Best Paper Congrès BIODEVICES 2020

Institute for Systems and Technologies of Information, Control and Communication

Best Paper Award Certificate

for the paper entitled:

Optical Spectroscopy for the Quality Control of ATMP Fabrication: A New Method to Monitor Cell Expansion and to Detect Contaminations

authored by:

B. Wacogne, D. Legrand, C. Pieralli and A. Frelet-Barrand

received at the

13th International Conference on Biomedical Electronics and Devices (BIODEVICES/BIOSTEC)

held in Valletta - Malta, February 24 - 26, 2020

On behalf of the Organizing Committee,

Higo Gamboa BIOSTE Conference Co-chair
